

SYSTEM A EDGE

Pressure Equalized Rainscreen Panel System

Project: *Emerald Place Sales Centre* | Location: *Burnaby, BC, Canada*
Architect: *WA Architects* | Surface: *4mm Engineered (Sintered) Stone*

S Y S T E M A E D G E

A compartmentalized & pressure-equalized Rainscreen system that offers a 'floating-edge' detail at the perimeter of the panels. System A-Edge is able to support 3mm aluminum plate, 4mm aluminum composite material (ACM), or 4mm to 6mm sintered stone. With all of the performance features of our System A, this pressure-equalized Rainscreen system expands our offering to Architects who desire this unique design feature.

- Instantaneous Pressure Equalization
- Continuous integral perimeter gasket
- Two direction free floating dry-joint attachment system
- Concealed thru-wall flashing
- Long span structural perimeter frame
- Compatible with thermally improved clips
- Optional face sheet materials

Unit 400 – 3811 North Fraser Way
Burnaby, BC V5J 5J2 Canada
