

RS GLASS

Back Ventilated Rainscreen Panel System

Project: *Chinook Regional Hospital* | Location: *Lethbridge, AB, Canada* | Architect: *Kirsten Reite Architecture* | Surface: *10mm tempered glass*

RS GLASS SYSTEM

RS Glass is a proprietary system developed to satisfy the desire for a high R-value, ventilated glass wall panel system. Integrating 10mm tempered glass, the colour-fritted panels provide a high-gloss, flawless surface. As functional as it is beautiful, the system incorporates the performance features of our tried and tested A-series panel systems for a low-maintenance, superior quality façade.

- Back ventilated Rainscreen
- Maintenance free, dry joint design
- Floating attachment system for expansion/ contraction
- Panels fritted in any colour with optional patterning
- Stainless steel architectural mounting buttons
- Compatible with thermally improved clips
